

Brian Triplett

Software Developer, Front end Developer, Back end Developer

Marietta, GA | btriplett1990@yahoo.com | <https://www.linkedin.com/in/brian-m-triplett> |
<https://github.com/briant1312>

After more than five years experience of supporting and managing logistic operations, I decided to switch to a career that I was more passionate about. Love any opportunity to learn something new and enjoy pushing myself to try new things. Always had a curious mind and love finding out how things work under the hood.

SKILLS

Javascript, HTML, CSS, Node, React, Express, Mongoose, Python

RELEVANT EXPERIENCE

Software Engineering Immersive Fellow | General Assembly | Remote | December 2022–March 2023

Successfully completed 420 hours of expert led instruction in full stack software development. Developed projects, including:

- **Checkers:** <https://briant1312.github.io/project-1/> I made the checkers board game for my first project. Building this game was a huge challenge and I learned a lot about front end technologies.
- **Recipe Tracker:** <https://briant1312.github.io/project-2-client/> I've always loved making food and trying new recipes. My second project is a full stack application that allows users to log in and add, update and delete recipes.
- **Clown Forum:** <https://clowning-around-client.onrender.com/> This was a group project that was built by me and 3 other GA members. This project allowed me to get practice developing in a group environment and we ended up having a lot of fun with it.
- **Expense and Bill tracker:** <https://expense-tracker-client-99oc.onrender.com/> My last project was an expense and bill tracker that incorporates ChartJS to visualize which categories your money is being spent.

PC Technician | TBF Computing | Marietta, GA | September 2021–December 2022

- Performed key unit testing on a variety of devices including pc's, laptops, tablets, cell phones, servers AIO's and POS systems at a pace of about 110 to 180 devices per week
- Performed basic troubleshooting and repairs(replacing motherboards/LCD panels etc)
- Wiped hard drives and sanitized devices to be inventoried for resale
- Collaborated with a team of 4 to 5 other techs on occasional group projects

Lead | XPO | Lithia Springs, GA | September 2015–September 2021

- Managed a team of approximately 20 people along side my supervisor
- Collaborated with other facilities on projects involving process improvement, error and cost reduction
- Delegated tasks and worked alongside crew in order to exceed production expectations

Warehouse Associate | Menlo | Lithia Springs GA | July 2013–September 2015

- Audited and loaded orders onto freight containers
- Prepared paperwork and communicated with drivers
- Operated numerous types of machinery to facilitate loading and pulling orders
- Worked with management to schedule LTL pickups to ensure delivery of products
